Section-II. General Conditions of Contract

1. Definitions

1.1 In this Contract, the following terms shall be interpreted as indicated:

- (a) "The Contract" means the agreement entered into between the Procuring Agency and the Service Provider, as recorded in the Contract Form signed by the parties, including all attachments and appendices thereto and all documents incorporated by reference therein.
- (b) "The Contract Price" means the price payable to the Service Provider under the Contract for the full and proper performance of its contractual obligations.
- (c) "The Goods" means all of the equipment, machinery, and/or other materials which the Service Provider is required to supply to the Procuring Agency under the Contract.
- (d) "The Services" means those services and other such obligations of the Service Provider covered under the Contract.
- (e) "GCC" means the General Conditions of Contract contained in this section.
- (f) "SCC" means the Special Conditions of Contract.
- (g) "The Procuring Agency" means the organization purchasing the Services, as named in SCC.
- (h) "The Procuring Agency's country" is the country named in SCC.
- (i) "The Service Provider" means the Bidder or firm supplying the Services under this Contract.
- (j) "The Project Site," where applicable, means the place or places named in SCC.
- (k) "Day" means calendar day.
- (l) "End User" means health facility.

2. Application

2.1. These General Conditions shall apply to the extent that they are not superseded by provisions of other parts of the Contract.

3. Country of Origin

3.1. All Services supplied under the Contract shall have their origin in the countries and territories eligible under the rules, as further elaborated in the SCC.

3.2. The origin of Services is distinct from the nationality of the Service Provider. In any case, the requirements of rules 10 & 26, PPR-14, shall be followed.

4. Standards

4.1. The services supplied under this Contract shall conform to the standards mentioned in the Technical Specifications/ work plan/ deputation plan.

5. Use of Contract Documents and Information; Inspection and Audit by the procuring agency.

5.1. The Service Provider shall not, without the Procuring Agency's prior written consent, disclose the Contract, or any provision thereof, or information furnished by or on behalf of the Procuring Agency in connection therewith, to any person other than a person employed by the Service Provider in the performance of the Contract. Disclosure to any such employed person shall be made in confidence and shall extend only so far as may be necessary for purposes of such performance.

5.2. The Service Provider shall not, without the Procuring Agency's prior written consent, make use of any document or information enumerated in GCC Clause 5.1 except for purposes of executing the Contract.

5.3. Any document, other than the Contract itself, enumerated in GCC Clause 5.1 shall remain the property of the Procuring Agency and shall be returned (all copies) to the Procuring Agency on completion of the Service Provider's performance under the Contract if so required by the Procuring Agency.

5.4. The Service Provider shall permit the Procuring Agency to inspect the Service Provider's accounts and records relating to the performance of the Service Provider and to have them audited by auditors appointed by the donors, if so required by the donors.

6. Performance Guarantee

6.1. The proceeds of the Performance Guarantee shall be payable to the Procuring Agency as compensation for any loss

resulting from the Service Provider's failure to complete its obligations under the Contract.

6.2. The performance guarantee will be discharged by the Procuring Agency and returned to the Service Provider not later than thirty (30) days following the date of completion of the Service Provider's performance obligations under the Contract, including any warranty obligations, unless specified otherwise in SCC.

7. Incidental material

7.1. The Service Provider may be required to provide any of the incidental material if any, specified in SCC:

8. Payment

8.1. The method and conditions of payment to be made to the Service Provider under this Contract shall be specified in SCC.

8.2. The Service Provider's request(s) for payment shall be made to the Procuring Agency in writing, accompanied by an invoice describing, as appropriate, Services performed, and by documents submitted and upon fulfillment of other obligations stipulated in the Contract.

8.3. As per rule-62 of PPR-14, payments shall be made promptly by the Procuring Agency, but in no case later than thirty (30) days after submission of an invoice or claim by the Service Provider, provided the work is satisfactory.

8.4. The currency of payment is *PKR*.

9. Prices

9.1. Prices charged by the Service Provider and Services performed under the Contract shall not vary from the prices quoted by the Service Provider in its Bid, with the exception of any price adjustments authorized in SCC.

10. Change Orders

10.1. The Procuring Agency may at any time, by a written order given to the Service Provider pursuant to GCC Clause 11, make changes within the general scope of the Contract, only if required for the successful completion of the job.

10.2. If any such change causes an increase or decrease in the cost of, or the time required for, the Service Provider's performance of any provisions under the Contract, an equitable adjustment shall be made in the Contract Price, or both, and the Contract shall accordingly be amended. Any claims by the

Handwritten signatures and initials, including 'Fahim' and a circled 'Q'.

Handwritten signatures and initials at the bottom left of the page.

Service Provider for adjustment under this clause must be asserted within thirty (30) days from the date of the Service Provider's receipt of the Procuring Agency's change order. But, in no case, the overall impact of the change should exceed 15% of the contract cost and no provisions of PPR-14 should be violated.

11. Contract Amendments

11.1. Subject to GCC Clause 10, no variation in or modification of the terms of the Contract shall be made except by written amendment signed by the parties.

12. Assignment

12.1. The Service Provider shall not assign the whole of contract to anybody else. However, some parts of contract or its obligations may be assigned to sub-contractors with the prior written approval of the procuring agency.

13. Sub-contracts

13.1. The Service Provider shall notify the Procuring Agency in the Bid of all subcontracts to be assigned under this Contract. Such notification, in the original Bid or later, shall not relieve the Service Provider from any liability or obligation under the Contract.

14. Delays in the Service Provider's Performance

14.1. Performance of Services shall be made by the Service Provider in accordance with the Schedule of Requirements/ Work Plan/ Deputation Plan as prescribed by the Procuring Agency in Section VII.

14.2. If at any time during performance of the Contract, the Service Provider or its subcontractor(s) should encounter conditions impeding timely performance of Services, the Service Provider shall promptly notify the Procuring Agency in writing of the fact of the delay, its likely duration and its cause(s). As soon as practicable after receipt of the Service Provider's notice, the Procuring Agency shall evaluate the situation and may at its discretion extend the Service Provider's time for performance, with or without liquidated damages, in which case the extension shall be ratified by the parties by amendment of Contract.

14.3. Except as provided under GCC Clause 17, a delay by the Service Provider in the performance of its delivery obligations shall render the Service Provider liable to the imposition of liquidated damages.

[Handwritten signature]

[Handwritten mark]

[Handwritten mark]

[Handwritten signatures and marks]

15. Liquidated Damages

15.1. Subject to GCC Clause 17, if the Service Provider fails to provide the Services as per requirement/ within the period(s) specified in the Contract, the Procuring Agency shall, without prejudice to its other remedies under the Contract, deduct from the Contract Price, as liquidated damages, a sum equivalent to the percentage specified in SCC of the delivered price of the delayed Goods or unperformed Services for each week or part thereof of delay until actual delivery or performance, up to a maximum deduction of the percentage specified in SCC. Once the maximum is reached, the Procuring Agency may consider termination of the Contract pursuant to GCC Clause 16 along with other remedies available under PPR-14.

16. Termination for Default

16.1. The Procuring Agency, without prejudice to any other remedy for breach of Contract, by written notice of default sent to the Service Provider, may terminate this Contract in whole or in part:

- (a) if the Service Provider fails to deliver any or all of the service within the period(s) specified in the Contract, or within any extension thereof granted by the Procuring Agency pursuant to GCC Clause 14;
- (b) if the Service Provider fails to perform any other obligation(s) under the Contract; or
- (c) if the Service Provider, in the judgment of the Procuring Agency has engaged in corrupt practices in competing for or in executing the Contract. For the purpose of this clause, corrupt practices will be defined as per Section-2 (d) of The PPRA Act, 2009.

"Corrupt practices" in respect of procurement process, shall be as given in S-2 (d) of PPRA, Act, 2009:

(d) "corrupt practice" means the offering, giving, receiving, or soliciting of anything of value to influence the action of a public official, bidder or Contractor in the procurement process or in Contract execution to the detriment of the procuring agency; or misrepresentation of facts in order to influence a procurement process or the execution of a Contract, collusive practices among bidders (prior to or after bid submission) designed to establish bid prices at artificial, noncompetitive levels and to deprive the

[Handwritten signature]

[Handwritten signature]

[Handwritten signature]

[Handwritten signature]

procuring agency of the benefits of free and open competition and any request for, or solicitation of anything of value by any public official in the course of the exercise of his duty; it may include any of the following:

- i. coercive practice by impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence the actions of a party to achieve a wrongful gain or to cause a wrongful loss to another party;
- ii. collusive practice by arrangement between two or more parties to the procurement process or Contract execution, designed to achieve with or without the knowledge of the procuring agency to establish prices at artificial, noncompetitive levels for any wrongful gain;
- iii. offering, giving, receiving or soliciting, directly or indirectly, of anything of value to influence the acts of another party for wrongful gain;
- iv. any act or omission, including a misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain a financial or other benefit or to avoid an obligation;
- v. obstructive practice by harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in a procurement process, or affect the execution of a Contract or deliberately destroying, falsifying, altering or concealing of evidence material to the investigation or making false statements before investigators in order to materially impede an investigation into allegations of a corrupt, fraudulent, coercive or collusive practice; or threatening, harassing or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation, or acts intended to materially impede the exercise of inspection and audit process

16.2. In the event the Procuring Agency terminates the Contract in whole or in part, pursuant to GCC Clause 16.1, the Procuring Agency may procure, upon such terms and in such manner as it

deems appropriate, Services similar to those undelivered, and the Service Provider shall be liable to the Procuring Agency for any excess costs for such similar Services. However, the Service Provider shall continue performance of the Contract to the extent not terminated.

17. Force Majeure

17.1. Notwithstanding the provisions of GCC Clauses 14, 15, and 16, the Service Provider shall not be liable for forfeiture of its Performance Guarantee, liquidated damages, or termination for default if and to the extent that its delay in performance or other failure to perform its obligations under the Contract is the result of an event of Force Majeure.

17.2. For purposes of this clause, "Force Majeure" means an event beyond the control of the Service Provider and not involving the Service Provider's fault or negligence and not foreseeable. Such events may include, but are not restricted to, acts of the Procuring Agency in its sovereign capacity, wars or revolutions, fires, floods, epidemics, quarantine restrictions, and freight embargoes. Both, the Procuring Agency and the Service Provider, may agree to exclude certain widespread conditions e.g: epidemics, pandemics, quarantine restrictions etc from the purview of "Force Majeure".

25.3. If a Force Majeure situation arises, the Service Provider shall promptly notify the Procuring Agency in writing of such condition and the cause thereof. Unless otherwise directed by the Procuring Agency in writing, the Service Provider shall continue to perform its obligations under the Contract as far as is reasonably practical, and shall seek all reasonable alternative means for performance not prevented by the Force Majeure event. Any difference of opinion concerning "Force Majeure" may be decided through means given herein below.

18. Termination for Insolvency

18.1. The Procuring Agency may at any time terminate the Contract by giving written notice to the Service Provider if the Service Provider becomes bankrupt or otherwise insolvent. In this event, termination will be without compensation to the Service Provider, provided that such termination will not prejudice or affect any right of action or remedy which has accrued or will accrue thereafter to the Procuring Agency.

19. Termination for Convenience

19.1. The Procuring Agency, by written notice sent to the Service Provider, may terminate the Contract, in whole or in part, at any time for its convenience. The notice of termination shall specify

Handwritten signatures and initials:
- A signature at the top right of the page.
- The name "Fatima" written vertically on the left side.
- A signature below "Fatima".

Handwritten signature on the left side of the page.

Handwritten signatures at the bottom left of the page.

that termination is for the Procuring Agency's convenience, the extent to which performance of the Service Provider under the Contract is terminated, and the date upon which such termination becomes effective.

19.2. The Services that are complete and ready for shipment (if applicable) within thirty (30) days after the Service Provider's receipt of notice of termination shall be accepted by the Procuring Agency on the Contract terms and prices. For the remaining Services, the Procuring Agency may choose:

- (a) to have any portion completed and delivered at the Contract terms and prices; and/or
- (b) to cancel the remainder and pay to the Service Provider—an agreed amount for partially completed Services and for materials and parts previously procured by the Service Provider.

20. Resolution of Disputes

20.1. After signing the contract or issuance of purchase order, The Procuring Agency and the Service Provider shall make every effort to resolve amicably by direct informal negotiation any disagreement or dispute arising between them under or in connection with the Contract.

20.2. If, after thirty (30) days from the commencement of such informal negotiations, the Procuring Agency and the Service Provider have been unable to resolve amicably a Contract dispute, either party may require that the dispute be referred for resolution to the formal mechanisms specified in SCC. These mechanisms may include, but are not restricted to, conciliation mediated by a third party, adjudication in an agreed and/or arbitration as per rule 68 of PPR-14 and in accordance with Arbitration Act-1940. The Arbitrator will be nominated by the Competent Authority of P&SHD.

21. Governing Language

21.1. The Contract shall be written in the language specified in SCC. Subject to GCC Clause 30, the version of the Contract written in the specified language shall govern its interpretation. All correspondence and other documents pertaining to the Contract which are exchanged by the parties shall be written in the same language.

22. Applicable Law

22.1. The Contract shall be interpreted in accordance with the laws of Punjab (Pakistan) unless otherwise specified in SCC.

[Handwritten signatures and initials]

[Handwritten signature]

[Handwritten signature]

23. Notices

23.1. Any notice given by one party to the other pursuant to this Contract shall be sent to the other party in writing or by any information technology mean for the time being in use and acceptable in ordinary course of business to the other party's address specified in SCC.

23.2. A notice shall be effective when delivered or on the notice's effective date, whichever is later.

24. Taxes and Duties

24.1. Service Provider shall be entirely responsible for all taxes, duties, license fees, etc., incurred until delivery of the contracted Services to the Procuring Agency.

25. Change in minimum wage rate

25.1. If during the continuation of the service contract, minimum wage rate is revised by the competent authorized forum, then the ongoing contract shall be revised as per percentage increased in minimum wages declared for such category.

26. Extension in Contract period

Initially the contract will be for three (03) years. However, the same would be extended by the competent authority, on the satisfactory performance by the contractor for further a period of three (03) years on the same rate & TORs. Extension in the contact agreement shall be the discretion of the procuring agency and the contractor has no right to claim further extension, as a matter of right in the contract.

10. Notices (GCC Clause 23)

GCC 23.1—As per contract agreement details.

Section-IV. Scope of Services

1. Equipment Covered:

The service provider shall be responsible for the service, maintenance, repair and replacement of the components/ parts of the biomedical equipment for which the SLA is being signed including batteries and probes etc. but excluding only those consumables which are required in the operation of the equipment. Tentative list of equipment with details of health facility is annexed.

2. Maintenance Services:

The service provider bound to conduct bi-annually visits per site of the qualified technical personnel/engineer for the periodic preventive maintenance. However, the visit for corrective maintenance shall be conducted by the service provider as and when required. The Service Provider shall attend the complaint regarding malfunctioning of biomedical equipment within 24 - 48 hours from lodging of the complaint and/or arrange its alternative/ backup (if time is required to resolve the issue). The Engineers of BERC will follow-up the complaint till its resolution.

3. Repairs and Calibration:

The equipment which required calibration will be calibrated as per the manufacturer recommendation (Bi-annual ppm is mandatory). The faulty part / component shall be replaced by the service provider immediately and the service provider will refrain from adopting any hack/non-conventional method other than specified by the manufacturer.

4. Up-gradation:

Software and hardware up-gradation of the system should be carried out as and when launched/ recommended by the manufacturer during the Service Level Agreement.

5. Spare Parts and Consumables:

The Service Provider shall maintain optimum inventory of spare parts of every kind regardless of the fault or frequency of malfunctioning that are required for the smooth functioning of equipment. Any part which needs to be repaired/ replaced shall /may be assessed jointly with the engineers of BERC and repaired/ replaced accordingly.

6. Service Level & Penalties:

- i. The Service Level Agreement will start from the date of signing of contract. Equipment which is still uninstalled will be covered under standard warranty period of one year after installation. SLA of such equipment will start from the date of completion standard warranty period. An annual uptime of 95% is considered as acceptable level of performance. If the uptime percentage for the measurement period (06-months) shall fall short of 95% the following formula will be applied to determine additional days in the service contract period.

UP-TIME	PENALTY
100% - 95%	No Penalty
94.9% - 90%	The service period will be extended by 2.0 times the number of days as extra down time.
89.9% - 80%	The service period will be extended by 3.0 times the number of days as extra down time
Below 80%	The service period will be extended by 4.0 times the number of days as extra down time

[Handwritten signatures and initials at the bottom of the page]

- ii. Health facility wise Log Book for each equipment shall be maintained by the Service provider and verified by the Medical Superintendent of the health facility and concerned In-charge of Medical Equipment Repair Workshop/ Representative of BERC. This will include the name of the equipment, down time, preventive maintenance schedule, corrective maintenance, replacement of parts etc.
- iii. Uptime shall be defined as the time available to the user for doing procedures/ data acquisition and processing during working hours throughout the year except gazette holidays (from 9.00 am to 5.00pm) except for equipment placed in Emergency and Gynae Departments.
- iv. Down time is defined as the failure in the equipment operation to acquire or process the data or procedure, resulting in inability to carry out the required procedure properly.
- v. Down time will start when health facility / BERC notifies the service provider in writing or by electronic means.
- vi. Down time will end once the repairs have been affected and the system is again available for use. BERC and the end user along with the service provider will jointly address the complaint and BERC will verify the downtime of the equipment claimed by the service provider in the invoice. Downtime will be calculated and implemented Bi-annually. Payment will be made after imposition of the downtime penalty. The next measurement period of uptime of equipment will start after the completion of previous measurement period with the imposed downtime penalty. The Bi-annual payment will be calculated from the annual SLA cost quoted by the bidder (For example: $Bi\text{-}annual\ payment = Annual\ Payment / 2$)
- vii. An "Optimal Percentage" will be calculated by dividing "System in Service" hours by hours available, both measured on the basis of working hours as detailed above.
- viii. Remote service via modem shall be preferred if provided by the manufacturer to pick-up early faults at no cost to the end user.
- ix. The manufacturer / supplier / Service Provider shall keep a check for electrical / magnetic / temperature and humidity conditions. Such a check should be made bi-annually or as per manufacturer recommendation and record should be maintained in the log book available with the end user/ service provider.

7. Responsibility Matrix:

a. In the event of complaint, the end-user/health facility lodge complaint to service provider beside lodging same on the helpline of BERC i.e., Phone No. 1454-042-99056000 / any defined official contact No., immediately after the malfunction of equipment.

b. The representative/ concern officer of the BERC will check with the database to check whether the complaint item is in SLA or not, if found in SLA, BERC will inform the service provider (along with PMU Technical Official) immediately telephonically / electronically via email. Additionally, the service provider shall submit/provide its official dedicated contact details (Phone & E-mail) to PMU-P&SHD & BERC-P&SHD before the signing of contract, which may be updated from time to time, if required, for the purpose of correspondence regarding complaints regarding functionality of Bio-Medical equipment.

c. The Service Provider shall respond to the complaint within 24-48 hours from the time of receiving the complaint (telephonically or by email) and provide feedback regarding its status whether resolved/pending/under-observation to the Engineers of BERC.

d. Upon resolution of the complaint, a report will be issued by the Service Provider duly signed by the Medical Superintendent/ In-charge of that health facility along with NMS / Biomedical Engineer (For DHQ/THQ only). The same report will be annexed with the invoice along with other documents.

8. Training:

The service provider shall train the staff/operator on the operational use of the equipment as per manufacturer recommendation from time to time. The service provider shall clearly communicate the correct usage, care and maintenance on staff level both verbally and in written, and be liable to ensure the implementation accordingly. The training may be requested by the MS / BERC or can be self-initiated by the firm to build the capacity of the staff.

9. Payment:

a. The Payment to the service provider shall be in Pak. Rupees.

b. The service provider shall submit invoices Bi-Annually (SKU / single equipment wise / Unit) as per below checklist. The invoices will be vetted by BERC and submitted to PMU-P&SHD for payment process. ✓

c. The Invoice of the Service Provider shall be submitted in the manner as follows;

Invoice Checklist (to be attached with invoice for each SKU / single equipment wise / Unit)		
Sr. No.	Description	Annexure
1.	Original invoice/bill(s)	A.
2.	PPM Report: Duly signed by MS / In-charge Health Facility along with NMS / Biomedical Engineer (For DHQ/THQ only)	B.
3.	Logbook Bi-Annually Duly signed by MS / In-charge Health Facility along with NMS / Biomedical Engineer (For DHQ/THQ only)	

Handwritten signatures and initials on the left margin, including a large signature at the bottom left.

Handwritten signature/initials on the right margin.

Handwritten signatures and initials at the bottom of the page.

4.	Service/Complaint Reports (If any)	D.
5.	Pending complaint status of the invoiced period (If any)	E.
6.	Detail of part replaced (if any); (If required)	F.
7.	Training Operational Training Report of Staff Bi-Annually (If required)	G.
8.	Any other document if required for processing of payments	H.

Note:

- i. The Service Provider must submit the invoice in proper file cover, for each SKU / single equipment wise / Unit wise.
- ii. It is mandatory for each supporting documents to be signed & stamped by MS / In-charge Health Facility and relevant NMS staff (Biomedical Engineer or any other NMS with additional charge of Biomedical Engineer).
- iii. In case of training conducting, the attendance of the training must be signed & stamped by MS and relevant NMS staff.
- iv. The page numbering of the whole invoice must be done adequately and documents must be attached in the same sequence / order as mentioned in the table.

INVOICE PROCESSING MECHANISM

Handwritten signatures and initials:
 - A signature above the first step.
 - Initials "43" and "Khalid" with an arrow pointing to the Procurement Wing step.
 - A signature below the Procurement Wing step.

TECHNICAL SPECIFICATIONS

COLOR DOPPLER (CARDIOLOGY)

ECHOCARDIOGRAPHY UNIT:

Make : TOSHIBA, Japan

Toshiba Fully Digital Beam Former complete Dedicated Echocardiography System "**APLIO PLATINUM SERIES**" for Cardiovascular studies in pediatrics and adults. Mobile Trolley Mounted System. Built in data management system for digital Acquisition, storage and review of complete ultrasound studies including static and dynamic clips in DICOM format, read/write zoom. Studies can be reviewed and output to CD & DVD, having sharp and high quality image and reproduction with heavy duty performance. PC Based Model with latest technology. Having System Dynamic Range 300db & DICOM 3.0 compatibility.

SYSTEM COMPOSITION:

- Main Unit TUS-A300.
- Mobile Trolley Mounted System.
- 19-Inches Non-Interlaced Color LCD/ LED Monitor with resolution 1280 x 1024 pixels
- Tilttable & Swiveable type with Articulating Aram.
- 10.4" Touch Control Panel Screen to control parameters.
- 3-Active Transducer Connectors.
- Color Doppler Imaging Unit.
- Spectral Doppler.
- PW Doppler.
- CW Doppler Unit UICW-A500A.
- Power Doppler.
- HPRF Doppler.
- Duplex & Triplex Mode.
- Cine Memory: 256MB.
- Foot Switch.
- THI (Tissue Harmonic Imaging).
- TDI (Tissue Doppler Imaging) / Tissue Velocity Imaging Mode.
- DICOM Kit for image storage, print, query / retrieve, network communication.
- Contrast Harmonic Imaging USHI-A500A.
- Physio Signal Unit for ECG UJUR-A500A.
- Built in Stress Echo System USSE-A500A
- for advance and flexible stress echo Acquisition and measurement for LV B-Mode imaging.
- quantitative analysis for contrast during stress.
- Examinations Used with TDI protocols.
- 2D Speckle / Wall Motion Tracking USWT-A500A
- For Strain and Strain Rate, and Pulse Wave TDI,
- Speckle Tracking in Longitudinal, radial and circumferential planes to measure velocity, displacement, strain and strain rate,
- dyssynchrony imaging, speckle tracking in 2D imaging for CRT(Cardiac

Handwritten signatures and scribbles at the bottom of the page.

- resynchronization therapy.
- Quantitative Wall motion tracking for extracting the left ventricular myocardium from the image data acquired by the system
- and displaying it for the evaluation of myocardial motion
- Integrated / Built in Data Management System
- With 1000GB (500GB x 2) Hard Disk for acquisition and retrieval of images for off line analysis and for future software upgradation.
- IMT (Intima Media Thickness Measurement).

PROBES:

- 4.8/6.2/8.6/10.0/11.0MHz Multifrequency Linear Probe Model PLT-704SBT.
- 2.0/2.8/3.4/4.8MHz Multifrequency Phased Array Sector Probe Model PST-30BT for adult .
- 4.2/5.0/6.5/8.5 MHz Multifrequency Phased Array Sector Probe Model PST-65AT for peads.
- 2.0 MHz CW Pencil Probe.
- Our Probes are light weight, capable of multiple center Frequencies on transmit for 2D, color Doppler PW/CW (Steerable) imaging and to perform harmonics.

SPECIAL SOFTWARES:

- Quick Scan enables automatic gain and STC control for B mode as well as Velocity range and Base line shift control for Spectrum Doppler.
- Advance Dynamic Flow (ADF).
- ApliPure for Compound Imaging of frequency and Spatial resolution for greater clarity and to reduce the speckle noise on B/W image.
- Trapezoid Scanning for wide view scanning of Linear and spatial contrast resolution.
- Precision Imaging / Tissue Enhancement for continuous structure Smoothly without scarified in detailed tissue information and provide more clarity in imaging.

STORAGE INTERFACE AND EXTERNAL OUTPUT:

- Audio & Video output composite and SVHS.
- USB Port with 4-Channels.
- Ethernet/LAN Connectivity.
- CD/DVD Drive.
- 10 DVD-R Diskette (*to be supplied locally*).

ACCESSORIES:

- Emerson Compatible Online Imported UPS for 10 minutes backup time for complete unit including printers (*to be supplied locally*).
- B/W Digital Thermal Printer with 50 Rolls of HD papers (*to be supplied locally*).

Handwritten signatures and initials at the bottom of the page.

- Jelly 20 Liters in bottles (to be supplied locally).
- Digital Color Thermal Printer with Set of 5-boxes of 200 HD sheets/box (1000-Sheets) (Optional with Separate Price).

FEATURES:

- 1- LATEST DIGITAL TECHNOLOGY has been employed for processing the images in real time at high speed. The system provides clear and sharp images in Temporal, Axial and lateral direction.
- 2- APLIO 300 has been planned and developed by focusing on the four points that comprise the workflow of an ultrasonographic examination; Navigation, Visualization, Quantification, and Communication.
- 3- THE EASY-TO-OPERATE control panel is adjustable Up/Down and in combination with the large color TCS, provides excellent operability. In addition, new transducer shapes and a new screen layout on the 19-inches or more monitor reduce strain on the user during extended examination.
- 4- VISUALIZATION; High quality B-mode imaging is supported by the newly-developed Pulse Subtraction THI, while visualization of small blood vessels is supported by the Advanced Dynamic Flow Technique.
- 5- QUANTIFICATION; A user friendly optimal measurement package and reporting function are provided for each application.
- 6- DIGITAL IMAGE OPTIMIZER automatically selects optimal parameters for each examinations.
- 7- TWO OR MORE IMAGE quality conditions can be changed simultaneously for 2D images.
- 8- TISSUE HARMONIC IMAGING is available with 4 frequencies for eliminating scattered noise.
- 9- MULTIFREQUENCY HIGH DENSITY DYNAMIC BEAM CONTROL with a single dial, allows the user to select the frequency between five different scanning frequencies and facilitate the user to concentrate on diagnostic characteristics.
- 10- APLIPURE for Compound Imaging of frequency and spatial resolution for greater clarity and noise free imaging.
- 11- QUICKSCAN enables automatic gain and STC control for B mode as well as Velocity range and Base line shift control for Spectrum Doppler.

SPECIFICATIONS:

Scanning Method: - Electronic Sector
 - Electronic Convex
 - Electronic Linear with Independent PV steering.

B-mode specifications:

Maximum Viewing depth : 40cm. Depends upon Probe(s)

M-mode specifications:

M-mode display : Scrolling with 8 Speeds

DISPLAY MODES:

B/M Scan mode:

(a) B(Single / Dual) (b) B/M (c) M

Color Doppler mode:

BDF (Single/dual) BDF/MDF, BDF/MDF/D, MDF/D, BDF/D, MDF, CWD and PWD doppler

Handwritten signatures and initials:
 Lmg
 h.s.
 Anshah
 Jagan

continuously steerable in the color blood flow image mode in real time.

D-Mode specifications:

(a) B (b) B/M/D (c) B/D (d) M/D (e) D

PWD, HPRF, and CWD doppler Duplex and Triplex Doppler With window function contrast control and base shift facilities, Auto PRF facility.

OPERATING MODE:

2D tissue, 2D angio flow, color M-Mode, tissue velocity M-mode, tissue strain imaging, Continuous wave Doppler, pulse wave doppler, disynchrony imaging, tissue m-mode, tissue velocity imaging, tissue tracking, tissue synchronization, blood flow imaging, blood flow angio flow imaging

DISPLAY MODES:

Live and stored display format: full size and split screen. Review image format: for still and cine, simultaneous capability B+PW, B+ CFM/TVI+PW, CW, B+ or triplex mode, B+ color split screen display.

Tissue Imaging, 2D mode, , M-mode, color Doppler imaging, color flow imaging, color Doppler imaging, color angio, color m-mode, blood flow imaging, blood flow angio imaging, tissue velocity imaging, tissue synchronization imaging mode, PW / HPRF Doppler, CW Doppler, contrast imaging, LVO Contrast, Vascular / abdominal contrast, vascular calculations, cardiac measurements.

IMAGING MODES / TECHNIQUES:

Tissue harmonic Imaging, Tissue Doppler Imaging, Color Angio, Tissue Velocity Imaging Tissue Imaging (Display real time Doppler shift information from moving tissue to better visualize and quantify myocardial function). Capability to display time difference in myocardial motion in color for CRT (Cardiac resynchronization therapy).

Quantitative strain rate imaging; An advanced quantitative technique of Tissue Doppler Velocity. Strain rate is a measure of the contractile motion of myocardium. Auto-Tracking contrast quantification: quantitative technique for on-line assessment of contrast agent images.

Contrast plus sequencing technology: a real time, low mechanical index, non-linear imaging technique for contrast agent examinations. The software should have the capability to show contrast agent only, tissue only or contrast and tissue displays. Contrast Harmonic Imaging capability.

Vascular imaging software for carotids with IMT measurement.

OVER ALL SYSTEM SPECIFICATIONS:

1. 19-Inches or more High resolution Color LCD Monitor Tilttable & Swivel Type.
2. Adjustable 8-steps transmittal focus,
Reception : Continuous Dynamic Focusing in 32 steps.
3. Doppler Pulse Repetition Frequency (PRF):
PWD : 0.3 kHz to 52.1 kHz
CWD: 1.4 kHz to 52.1 kHz
4. Sampling Width : 1-20mm.
5. Cine Memory: 256MB for 2700 frames
6. Operating Modes: B, 2D, M-Mode, Power Doppler, HPRF, Spectral Doppler, Color Doppler

Handwritten signatures and initials at the bottom of the page.

- Doppler, Velocity Mode, PW Doppler, Duplex and Triplex Doppler, CW Doppler Stearable and ECG Gating
7. Alphanumeric Key Board with Built-in track ball.
 8. Direct Dedicated function keys to access system functions.
 9. Indicator light to identify actual keys.
 10. Built-in Freeze facility through key panel and with foot switch is available.
 11. Doppler Beam Steering and Audio Volume Control with stereo speakers.
 12. Auto Adjustment Transmit focus.
 13. Total and Lateral Gain Compensation (STC) 8-Steps are available.
 14. User Image Magnification Selectable: 27.1 times in Real Time, PAN Zoom and Scroll.
 15. Duplex & Triplex Mode.
 16. M/D Mode Sweep Speed : 8-Steps. Variable 1.7 to 13.8 sec / screen.
 17. Colorized Spectrum Display.
 18. System capability: 2.0 to 18.0MHz
 19. 256 Grey Scale.
 20. B-Mode Angle Variable in 4-steps.
 21. Simultaneous display of B/W Color and Spectral.
 22. Frame Rate: 500 Frames/sec in B-Mode and 1087 Frame/sec in Tissue Doppler Mode.
 23. Video Output S-Video, Color Composite DVI-D, Video input, USB, RS232, Ethernet.
 24. Image Processing, Dynamic Range, Echo Enhancement, Image Inversion, Persistence, Correlation, Pre-Processing, Echo-Filter, Echo average.
 25. B-Mode measurements: Distance 4-Channel, Angle 2-Channels Area 4-channel, volume, 4-channels.
 26. Auto annotation facility.
 27. Capability for the upgradation of future software as per recommendation of our Principal within the warranty period free of cost.
 28. Caliper / Measurement : 8 calipers for measurement per screen trace length measurements for: Distance, angle, distance depth from skin line, area, circumferences, compound / volume, slope, time, heart rate and acceleration, B-Mode Profile, Speed, PI Measurement, Auto IMT measurement, RI Measurement, Biometric Tables for fetal growth measurements with trendgraphs.
 29. Applications: Cardiac, Peripheral, pediatric, adult cephalic and Transesophageal application software with measurements.
